

Pankaj Baraik

PROFILE

To work for an organization which provides me the opportunity to improve my skills and knowledge to grow along with the organization objective.

PROJECT

Study Notion

Developed a full stack education application using MERN stack. This project is intended as a learning tool and can be used as a sample project for educational or personal projects. These are some features implemented such as User Authentication, Courses and Lessons, Progress Tracking, Payment Integration, Search Functionality, Instructor Dashboard.

AMAZON CLONE

I created an Amazon clone using React and Firebase. I am passionate about React and use it to create user interfaces for web applications. I also use Firebase to store data.

CHATGPT AI APP

- Constructed an OpenAI-based chatbot application with a Machine Learning model to respond to user-generated questions
- Implemented a JavaScript codebase to enable project deployment for training the model
- Utilized data from a pre-existing repository to ensure accuracy and validity of responses.

CERTIFICATE

Certification on MERN from Learn Code Online by Hitesh Choudhary.

Certification on HTML & CSS from Cisco thingQbator Program.

Certification on JAVA from Aegis Institute Partner Microsoft.
